ತಿಥಿದ್ವಯಂ

The terrible "depression", ever experienced, that has come over since
cessing of days ——— increases with every hour in its telling effect
a mind which refuses to ^{attend to any kind of} work ——— work wh. has been estimated
in arrears re: foreign letters, life rough notes - & added to that had, the
list of persons whom books (work) are to be sent with letters.

It seems strange indeed how one feels so depressed, when
one should take it a "privilege" to be so useful & serviceable in the
work of B. ——— as ——— to be instrumental in finding a place like this, where
B. has so much, a Bengal which is so convenient & comfortable every
way, everything so surprisingly quiet & suitable to the environments we
require, where one's presence is so ^{useful} necessarily required for construction of
B. - his work - & where one could find work to do for B. in the sense of
establishing nice contacts with persons of distinction in public life who
come to see B. ——— & so on. But life with a master is ever so difficult -
to understand to live, with a thousand one ——— thoughts rushing &
pursuing all the while

- which if liberally conveyed would have meant a total refusal
by the Authorities, either to allow ^{the} ~~to~~ go to the patient or to

I Note, despite the fact that one for Dr. G. - & the other for Dr. R. - re: same table -
 for from 5M - Under ordinary circumstances, it would be ridiculous to
 give such Notes to Drs. (Hospital Authorities) while trying to explain & ask for
 what to do if Not read & accepted by either or both, B - as usual, created
 a way to upset anyone, with unfounded allegations, for saying the Services of the
 one, and cursing & reprimanding the other (right) in a way as to totally upset
 the sincere worker - a situation he probably wanted to create for this
 work - then his usual Caricatures, & disgust of Men & Things etc....
 Mys - "you gradually to egg" - Both Drs. however explained, both
 just cast a cursory glance, in their hurry @ the work - a letter full
 sweeply rejected. ^{vomits out food at night - anxiety - sent to hospital}
 Again - plans for West considered & ^{at 10 p.m. - Dr. G. - explains letter to work - desires - a letter}
^{the "whole" - note (a inclusion) words "you are right" -}
 till June! This New "ledda" made us all glad - leaving us to strive
 for this work

The "depression" on a terrible pitch this afternoon - the more one tried to
 rise to the occasion - be worthy of the Love & confidence he reposed, as
 the "principal Man on the Spot" - the more it reacted - a sort of feeling
 of being absolutely "cut off" - Over-estimation of one's capabilities might
 bring results that would at times be "disastrous", so better take the easier
 course - ^{Frank} admission of one's "ineffectiveness" or incapability is the fault
 better than a false pretence or show of "one's eye"

Discussion again re: M's health, which, tho' improving, will still take 3 weeks at least to be completely alright - Since the wound is v. deep & will take time to heal -

It also transpired, during talks with the hospital staff, that many cases of similar operations (of the ear) have only recently proved fatal - 3 in the Mission & 3 in the General hospital, was at the hands of Dr. R. —, and they are all surprised at M's case which was more difficult, intricate & even dangerous, and as it is reported, Dr. Gylespy & others (of the Mission hospital) already went to the church & prayed for a successful outcome of this case - on the morning of the operation, before the case was taken in hand, (I. probably that prayer case to B. — who had to hear it -)

Mrs. — tells more & more - B. this morning, during his labra's walk on the Kumar Court of the bungalow, found someone tampering with the "tattoo" thru the hole that was recently patched & sees a "woman" who runs away - seems B. apprehends no report but the explanation this afternoon - on (or before) discussion - how it is "felt" created, experienced, etc (note separate notes)

Meeting (Cabinet) again to discuss whether of the 3 places -
- Mysore, ^{Shantik} Vai or ^{Shantik} M'abadi - would be most suitable in view
of 3 important yet different points - (a) for the establishment
of an "Ashrama" for Indians & Westerners, combined. -
(b) " " for Indians only - (c) individual "leisure"
- The Majority favoured "M'abadi" if for Indians only vs
Vai - Pauch plan - for Combined - Eastern & Western disciples -

Weather cloudy - No wind - feeling v. warm -

Food
Friday - presents to Dr. Robinson or to Dr. Gp. - & hospital Staff
(fresh fruit parcels for Bangalore) hurry. Visited to hospital in the after-
noon - all pleased with fruits, except the sudden change in the
weather - (cloud & heat) had an effect on the patient (M-) who
vomited thrice (after eating fruits), had more pains fr. the wounds
& had also a temperature! - J's report in the evening gave
much concern to B - who came to the Mandali hospital in the
evening & had long talks over the issue! This M's case has spoilt all
the programme, & in spite of doing all the best, there was no knowing when
some fresh complications might arise & spoil the case or detain recovery!
It has created a "dead lock" to B's activities, being compelled to be
stuck up here till the completely recovered.

Today, there was another Couphusion in the Suction, already tense! K.L. all of a sudden had an attack of _____, with vomits & Micturition, & it was with difficulty B could manage to stop the rot? It would send "Kras" to him, to manage things with external means since he could not put in his mind (interiorly) in there! The Audreus were already had reffered due to his illness, N's absence, & the one who was trying to manage cooking for B was thus laid up, again, so that he was again to put up with any sort of meals served - (for the one meals he took daily, now a-days), besides all this bother, to manage with the Audreus, & the Cervical @ M_____!

The question @ Hakim at Anlais was also being discussed. We must have rest & sleep, which he didn't properly get during the last few days, getting less & less, gradually. - Searching for a new quiet room for him to sleep, constructed!

This evening, B. comes to Mawadi's consultation after a report recd. of the patient's condition would still take much time. He feared that at least one month is needed for recovery or perhaps for dealing with the complications to be dealt with in the next few weeks. B. felt concerned if this would lead to further complications during this period, and besides what about the delay in all programme! Every day to him was like a year, due to the difficulties with the Audreus - 3 of whom were already ill - S. Manji who called specially for M_____ was approaching the period when her usual complaints would arise - she would be laid up for days, which would mean another attendant on her? & 2 were already laid up. What a Suction!

calmly instructing referees - West Mouth etc.

Mys - was telling all the more, every day, that there was no
immediate solution! It couldn't be removed till at least the end of
the month, & he had to stick here till then! What after that? None
knew! & he wouldn't say & show any indications! I left with

Another difficulty! Chagan developed the same complaint today -
vomits & nausea. Saw he had to do the Pabra duty, so essential,

Further, he would instruct tomorrow!
As if all this was not enough, there was the Justice 96255 being discussed
daily, till at last, he was ordered to come over here!

Weather Still Cloudy - feeling warm -

True paines with practically a Situation of "Deadlock", B. being stuck up here due to her illness, which, as reported by doctors - would take at least 2-3 weeks more for her to come home.

It was reported that some mischief at night was played up the "Bala" - where continued "taps" 24-24 were heard at night by the Audernas - from the side of the tatta-door, in the front compound!

B. comes to the Maudaki hospital, this evening at 9 - and is entertained with Sperakes, ಗವಿ etc. by Chantabeb with the accompaniment of J.

But Ch. insisted for 3 months -
 B. explained that - ನಗರ ಅಥವಾ ಮಸಿಕ್ - ಏಕೆ? ಏಕೆ? ಏಕೆ? - why? for work all have ನಗರ, one or the other, but on deeper thought, it would be found that there is a world of difference bet: ಫಿರ್ಮಿ (selfish vs selfless)! - While Ch. thought there was no necessity (ನಿರೀಕ್ಷಿಸಬೇಕು) for duty, B. thought it was all the more in a foreign place like this, so it was only with this thought of duty that he was feeling for Ch.'s health, (otherwise - he wouldn't care even if he died)

Dr. Robinson comes & examines Mani's wound, and leaves certain instructions for Dr. G. for M's treatment henceforth - we see him in his hospital (after waiting for more than an hour) when he explains that it will take at least 3 weeks more for a complete cure.

Mani is ordered to be taken out for a drive in the open air every day: Accordingly she was taken for the first time, after her entrance to the hospital - for a 15 Mts drive this afternoon - with Dr. G. & N. accompanying.

Chayan taken to the Cyprus hospital for examination -!

Night entertainment by Bhan Sahab of J. - a few minutes of good laugh & pass time, which he likes to engage ^(he would much prefer any such humble show rather than a vaudeville!)

ಅವನು:

Meeting this Afternoon - to discuss what steps to take in the
 Matter of the New "Lafda" of Stone throwing at Night - Who
 Must they be? Thieves or Mischief-makers? Several
 features & remedies suggested - but none
 approved or put into Execution - In that, it all meant
 a Subject of discussion for a mere pan-tive, probably for
 Certain work he wanted to do thru this as a medium -
 - It all ended apparently, in Silence, and things went on
 as usual - No reports either to police or to Subramane Iyer -
 Nor any other threat or action, as suggested, to be taken
 except the New Pahra-duty by Janador, who was called, and
 all he arrives - 3 of us too sleep in the Outside compound!

- Was this a silent reply to Chagnis remarks the other
 day - that Pahra was Not necessary here (in Mysore) to which
 B. emphatically replied that it was all the more necessary?
 Either this ~~fact~~ was a pre - (cause) for the subsequent attack
 of Stone-throwing or some such disturbance for an by B... or
 his attack itself was a silent response to Chagnis erroneous
