begun to enter 'Saurashi' when thundering sounds of gun shells woke us up for
the sweet slumber, to make us realize that it was "Fireworks"

B. expressed his wish to go out & be amongst ^{crowds} - as he did in Madrid, or wanted Bol. & others to find out places & times when crowds gathered or he could go.

B - I desire to re-build with reference to a certain topic in which the question of "destruction & devastation" was discussed, re. His work, as in Madrid, where he Worked freely amongst crowds for hours & looked, to being about a New re-^{peoples} & re-construction of men & things there, which required a destruction & devastation of all things existing - as witnessed New

- Spurred me - raised over the meetings of B.S.S. with 41632 in their D. 26 - a scandal raised in the name of "servants" - all concerned called up - bel-nad-vol - explanations given - Mis-Understand up cleared, & the drama staged had a serious effect on all as a precaution for future - It showed how petty the New and how foolish & weak the mentality of people are to so easily misunderstand the actions of members of the group - L.E.D. as being probably at the bottom.

Those who Come to Criticise stoop to love

The influence of B's love & personal ^{new} contact - some of the Members staying here, couldn't understand what was going on here & quickly Mis-Understand B's working of the Movement & Attitudes of some of the Members & they at once jump to conclusions & Criticise, even B - but his love & influence gradually brought them round to a sense of Consciousness & love & they will never only hesitate but refuse to go - ex: 11700 & the 21920 -

Helen D & Alice arrive this evening - meet B. for a moment & are called tomorrow

B. arrives this Morning at 9 - Unexpectedly - & there goes on a big drama @ the "Night Meetings" - innocently held but seriously mistaken by some Silly Minds that raised a Scandal - 1935 or 1936 - were taken in & the whole thing for a time seemed to upset the Calm & Smooth Atmosphere here, a hell of a storm being raised by J - a v. serious Warning to all concerned to be Cautious

Dorothy arrives this Morning with the Boy (Louis, Spanish refugee)
He narrates how he got the boy from the refugees camp at Paris, & the awful condition of the camp - etc. - boy, tho' good-looking, could Not be accepted - BROKEN - in spirit with the horrible hardships he had to undergo - Kitty to get Paris to find another - if necessary B. to fly with Benjie later -

B's ^{description} Qualification of the Boy - Healthy, handsome, intelligent and innocent - qualities essential for the work he wants to do for the world - esp. to destroy lust (of sex) & also of the home - Sexual ... had prevalent to an alarming extent all over the world - If the boy isn't innocent, he would at once Mis-Understand B's working 1935-1936 with others & even himself, which would hinder instead of help the work

The "Boy" question - further developed & according to plans, Kelly leaves this evening for Paris to find one in the camp of the Spanish refugees, where B. repeatedly said there is one - and B. would fly with Dinkin if he found one & wanted B. to see.

The boy - Louis - staying here found the change in circumstances here to be helpful & he looks much relieved & changed - ^{is not} (dead) opposed to Fascist or Communist - being bread & brought up in that environment of hatred & toward in the doctrine of destruction. " as reported by Fred - who tries to warn us. But B. said "He will turn the key and make it alright -"

Margaret left this evening by 5-15 train for London

Visitors -

Bancrofts - Beatrice Burke & her friend - Mabel's friend - who had seen B. & danced in London (new at Park Lane)

3- Beatrice Wanger, otherwise called Nadia - Sister of the famous producer Wanger - rather too ^{is} & 9 & 9 -

34 Mrs. Henry Clews - ^{Widow} ~~Wife~~ of the famous sculptor who died recently - Understanding & responsive. She seemed to feel much concerned about the "hideous forces of evil" at present working throughout the world, and wondered why it should be like that & where would it all lead to. B. explained that this in itself was a sign of the God that is to come to the world & that God works, although a few, are always working to help humanity thru their good thoughts & acts etc. & that the time is approaching

X " ... I always wondered what that "Sign of Buddha" was, and when I saw Christ, I understood what it meant. "

Important Question today was @ the BOY and Kelly's Message on phone fr. Paris, for which Special order was issued Not to close the phone between 1-3 p.m. then extended from Villa Caldaia - to 4 - and then again to 5 from B. waiting all the while there, and came to Caps-de-Monte at 6 pm. having read K's message that the boy was found, satisfactory & that she was bringing him home tomorrow - No need for B. to fly - Let us hope - it is OK. -

Meanwhile - Cooks ring up to say the Prof were read & that they heard B's signature - (as M.B.) on the Receipt - Ch. ran to Cooks, had the Receipt brought to Caps-de-Monte & had it signed (D.B. & y) for the electric bill. - and got the Quint. w. Fcs. - B. paid much less attention to this, than expected: probably busy elsewhere -

Miss Walker - B. discusses plan re: has intended kind to Shorty (and y) possible to Germany - relocated - letter fr. Seiber re: the Felders - B's instructions, to touch her & cure. (in Germany, if he happened to go there, or bring her here North.)

In the Cinema - the flight - first of Moramar Rest... then to the Cinema - see Marian Davis & King Crosby in and leave at 10-15 of the interval, the other picture "Man-in-White" (with d. Gable & Myna Loy) being dropped - too late.

B. ~~tells~~ on phone "hum, hum" - with Ch... K... & Mr. re: the boy -

The New boy Belarmio is to be sent away: while the first JOSE LUIS is to stay. B. remarked "perhaps he may love me, and I might take him to India but one" "He gets more lovely day by day & today, he remarked to Fredo @ B. "I like the Man with long hair. He is so kind & gentle but what a pity, he is ill dumb & can't speak" - ^{Blessed} ~~but~~ unconscience ? -

Douglas - B. tells Da... that he would like him to stay longer & be in closer contact, as B. loved him and wants to give him something... as conditions were at present, B. couldn't do that as he is too busy over there & can't while he is here, he couldn't give Bn. the Company as he would like him to have - It is therefore decided that Bn. go to London Nov., resume his studies - & come home for 25 days (Wednesday the 10 days of the present term together with the fortnight of the next term) after September end or in December, as B. would instruct him. - and Bn. leaves by the 8:30 train with the few boys

B. - spares his the humbation of having selected the wrong boy and appreciates his wonderful, whole hearted efforts, irrespective of results however disappointing. - While all naturally expected "Something Serious" (of kind shown in X-5) as the wrong selection of the boy - which was des of pointing to all - B. was wonderfully sure for all that, to the surprise of all - During his stay here, he worked to hard & quick "I always like U.S.K." - He remarked & we all knew how he does.

Note: goes out with Fredo & Caswell for New contacts -

B... goes out for a drive with Walter - Madu - A.K. in their car, on the Greening.

Another "dramatic episode" - B. came as usual at 2:30 -
 I immediately called the boys & drew attention to a v. foolish & rather
 dangerous remark made to her by P.S. @ feeling "Sad & lonely" how it
 was mis-interpreted, mis-carried to K. & Nov. who ~~had~~ understood it & had a
 "shock" - & B. had to patch it all up & explain. I defined them of sleep last night
 when he felt restless. It so seriously offended & spoiled the work - explanation
 by P.S. of his innocently spoken words without the meaning attached or join
 to it by others - Accepted & forgiven but what @ the harm it did to the work.

Warning - Be v. careful in your talks -

B. then, in his Masterly way, called Dr. Art. & in their presence gave
 a beautiful talk on "Love & Faith" - gave in spite of these splendid qualities
 the thought of "Self" - a of comfort or happiness of one's own. Spoke the atmosphere
 & eventually endures the work.

"For me - all are equal. I love all equally. Universally.
 However, individually it is different. I don't love the Cook as deeply
 as I love you all - to be a thing of the group. Why? Not because she
 is a Cook but you are more than that, but because you love me
 more than others: Are prepared to do any thing for me. She gave up
 any thing for me ... brother & parents didn't like & oppose of her idea to
 go to India - got she did - for me - that's all v. good. But - it makes
 such a difference when it comes to the personal ^{consideration} Nature. There are some who
 like quiet, ^{passively} Solitude, Silence, Meditation & Ashram life. Others who like active
 quiet, life. I like latter more, but for work the former. So I have to tolerate
 both & expect co-operation & help from you & you are not twins so
 which works work Try to fit in ^{yourself} all conditions. Be Natural. Don't
 change the Nature of life & party but don't ^{show} displeasure or censure others who are
 different in nature.

 the thought of "Self"
 & eventually endures the work.

That day was "spying" on boys by B's order &.... the word spoken at the moment of depression & deprecation, in all good faith to avoid Company of CRISIS - esp. of DS - threw such unpleasant reflection on B's work & ways.... as also a bad reflection on Boys... If seriously taken might be Misconstrued & Misunderstood to mean something dread full that might spoil B's work..... B felt & knew and openly showed his displeasure in words that were too piercing in their sting or real for R... crying.... & as usual B forgave, with love & good word of advise that he said this all here: He loved R... otherwise he would have kept quiet or devised other means to stop it - or get rid of him.

Weather changing — Sun & clouds, appearing at short intervals... with an uncertainty

People here say — These 2 Months are the worst here — dark, dull

Significant of B's visits to places, almost invariably "out of season"
arrived at 11 AM — When people move down (leave) we move up (enter)

Here in the most popular holiday resort, one of the best in the world —

we arrive & stay at a lovely season — Deliberately? ... who can
think? ... Perhaps B wants the publicity & wishes to avoid crisis
for his work in science —
