Talks with Nari: & Aps. -

Next 4 Months - Recruit. - Altho' this war has shown to people  
how futile Money, wealth & properties etc are, being either destroyed  
by destructive forces of warfare - where life as such has practically  
no value, - yet this lesson that "life, wealth & properties  
have no value, are all futile & transient" has to be convincingly  
taught & brought home to India - & for that Ind. has to suffer -  
Most of all - & see how the Powers are working it all out - Ind.  
will have to suffer most of all - will be helplessly crushed bet. two  
powers her enemies - one from both sides - East as well as West -  
then there will be internal troubles - Govt. itself will be unable  
to tackle the problem - Chaos all over leading to a complete deadlock -  
and it will be then that I'll speak..... The world will have to listen -  
You will see - But don't worry - Carry on as at present - don't rush  
me for anything NEW - let things roll on automatically - give no  
punch no hold them back... let it all happen naturally - & force  
Nothing..... and in whatever you do, I'll have my share.

Dr. Khambhat's friend in a predicament - Telegram & letter - Do reply.  
do as you think best & I'll bless it.  
Personal - all-India & medical.

B. & party return from tour - this Morning by the Haridwar-Delhi Express, which they took from Moradabad. (For details of tour - vide sep. Note)

I arrive immediately afterwards by the Delhi-Delhi Exp.

See B. at 3 p.m. ... General discussion re present situation - world in general & Ind. in particular - Japan's strikes & successes in the Pacific were surprising & with the fall of Singapore, prospects were v. gloomy, esp. for other countries in the vicinity like Burma & India. Topics then turning to the visit of Chiang Kai Shek to India, B. remarked that he was a great philosopher - a man of great spirit sincere & practical. It was a unique opportunity for party leaders in Ind. to meet together, or be brought together & a solution to the deadlock found then his <sup>unique</sup> influence. But it was surprising & a pity that Ind. lost this opportunity - naturally feared. What earthly use did anyone gain by praising each other in eulogistic terms - (praising each other's greatness & flattery) - His party of the victory as the greatest administration of G. as a first leader - also of the greatness of Nehru & present - etc & they all in fact they have the greatest leader - etc etc. The Gov. & the leaders both had lost this wonderful opportunity of settling the differences which his influence - as a third party respected by all - would have brought out. ---

Proposed Changes in the <sup>present</sup> B. Cabinet were also mentioned.
