Two types of Mad - one gone mad for material considerations, the other for spiritual considerations - in the Godion Pariser and H. S. in Pariser - (the one brought - today was of latter type, hence good) - Masks are quite different.

Sawyer's free speech and play challenge or openly declaring fight, as reported in today's paper - (State sewar) discussed - " indirect or dangerous to other Self words at a time when the enemy is at the door. - It looks of playing with fire and would ignite the flames of fanatic hisses for downright massacre.....
Very regrettable disappointing, disastrous for Self at this crucial moment when great issues are at stake.

The Group's intended trip to Rishikesh had eventually be dropped today after discussion on the difficulties of transport & lodging for so many.
* B. decided to go there for his work, however and morning for 2 days - with G. A. B.

Maedali re: reply - were —
B. explained, during these talks, that Altho' as a Master, he
has to & does shoulder all responsibilities of the Disc. who
depend upon him & has left all to him, he wants, under
certain conditions, the headali to participate in this
responsibility by suggesting ideas, plans & etc. whenever he
wants. Altho' the entire responsibility always rests on him, this suggestion
by ^{his} side, whenever asked, lessens his burden to some extent.
Everything comes to the same definite purpose, as already marked out,
one way or the other, the details & methods differ - for ex: I tell you to
go to station & receive someone at a particular time. Whether you go by
car, bus, bike or on foot is left by discretion - the object is to go
& reach there at a stipulated time. In this case (Bay.) where
there are two separate issues (of two distinct props) involved, reply
to them (for both) must be factual & thorough.
