21st: ← Triumph. Talks with B. —————

Re: Work - group to Delhi & other places, to Meet leaders

B. regretted the probable Mortality of Ind. leaders - Mortality, changing & Most cowardly at such a time - & felt deeply for that - What of non-coop -
 are ready to cooperate & fight for ^{us} had been: Opp. proposals unacceptable
 change their attitude, never to fully Non-cooperation etc. when the enemy was the
 door..... (Triumph of 'Patan' - Swaraj & Swachh Bharat - 'Hindu Raj' -

G... Non-cooperation - non-cooperation - what a Mess? With all leaders ^{fortitude} turning
 their heads in different directions, instead of 'give-take' policy & carry to forces
 & Murthy that is Most essential, what could any Govt. do? (apart fr. its
 own faults, however serious) Ev. Col. Johnson, would not seem to have gone
 to USA, disappointed. Am. are not fools: to be prepared by B's talks etc.

What John & this personally between here, is sufficient - better to form an opinion
 - C.R.'s attitude, bold, appropriate at the moment, in the absence of any better

Arundo's Sp. blunder - his word dis-regarded by all - If B. came with letters

Talk of 652 - B. remarked - If Russ. stood the German onslaught, better - the
 Pers. and surely even over Caucasus, Iran & came to Ind. with Jap. parity for the
 East... etc. Church's speech, splendid. That is the spirit required - victory is
 so - no leader... If B. came with the ~~papers~~, what a confusion?
 Ref us see -

5/21

B. returns from here this Morning - (this time, most annoying in train hours (12-14) - over-crowded - no time to eat - no food available - & Unreliability for work for want of time, convenience, information - bad roads, - etc. - all dead food in 5 days.

It is reported - B. has long been incensing ~~unconscience~~ himself during travel in over-crowded trains by giving room to those, & himself, practically half the time (half-sitting on the edge) of benches for hours... particularly in their uncomfortable & suffering.

Those who travelled Telom, reports today that they had to sit on their own bedding & baggage in a small compartment - so what @ the Cl... people travelling on foot-boards, in hot dangerous positions - & inside actually one near to other - blocking all possible passage - making it impossible for exit - (a case of ^{the} need)

Correspondence: telegrams etc - reply (Dr. G.) "Your old man met my old man - in Loko - "Never ask advice again of fool B... - don't go. Cal: my responsibility based with p. disregard of my word & advice for the sake of pleasing your father etc. - " (vide letter)
