2 THURSDAY

1942

Come 10:30 Morning - Call fr. B. immediately on
Arrival - Call spelled down - call game at 1 p.m. - talk on
Host -

after business (town reports etc) talks - in general discussion
B... sadly remarked @ G... how he argued with us (see: our letters)
re: No. never inacceptable to him - that even B's explanation came to him as
a Shock... etc and now, he himself is openly advocating in papers
& talks, the same No. violence - This double dealing of a
person like P. greatly disappoints B... For the first time B was
marked talking @ to me such a... tone. All these years, B. had a
regard for him, particularly for his Sincerity, and he gave G. several
opportunities to be ushered into the Path, (talking him to be a true Seeker)
and kept up good contact & relations; recently - during Cripps mission
& after its failure, B. again offered a chance (allowing G. would openly
play with his aid for Non-violence, in desperation & as a last resource)
and tried to explain the Subject thru a sp. Message ^{primarily} meant
for G. but subsequently given out for public... twice did he send me
to Delhi for personal talks - B. himself offered to have a personal talk at
Varanasi ^{actually} dates (after the 20th April), but subsequently ^{changed his mind} stopped all
discussion (vide B's letter & also G's) refusing to hear of "violence" in
any form, as against his confessed Creed... and only in a few days,
openly declared "violence" is justified in certain conditions. Vide
