of Mr. Baker which he highly appreciated

Yesterday's Dean further returned
me again today with bad & after much
discussion with Shee he was satisfied &
said that he had been to May, but not to
Scherfic - concerned as here - Shee
asked him to stay here - what he said he
will let us see

There came a party of a Harbours
wife - the male member being guilty
accused of being stolen something's property
which was his son and was kept in prison
custody - Shee had told the Police Officer
when he came here 2 or 3 days back - that he
was a poor fellow & should be released
They had communicated with a report that the
way needed, the wife (sensible) had

That it was due to their frame - that they
should go there's dashana before going home
- to Kolhapur. There was found to be
difference in the attitude of the men -
a hard half crack followed by 2 or 3 days
now being quite concisive & sensible.
The wife implied there to give the
blessings that the men may meet her

There came another party from

seated for advancement and it was the

also been to Nagar & who has stayed with

the boy was his friend etc. She advised
him not to be puffed up or misjudged by
such saying, also telling him. He must
himself attain something. To that use
the speaking part of us, we must be
a quiet something. After that, thereupon
from a hint that it may be placed the
Ghouse - here will be the boy for
his advancement, but seeing he has
not much inclined, she would rather
say that he has here also, but may rather
under a real saint (realized) as the boys
showed much advance (as he could be)
she said that he was out, speaking hap-
kasaid - anything that came in his lips -
etc. to which the father of the boys replied
that it was not hap kasaid, but with some
meaning in it. etc. She once again advised
him to have his four boys with him in the
world, to leave the boy for the 11th ship,
so that afterwards he may improve and
make salvation of others etc. as they the

after they had gone, the woman
 which she said that the boy
 marked out was exceptionally good
 in certain respects - he may be put on
 one side - all the other boys on the
 other - & that such a boy, with their
 blessings & the Boker's teaching, would be
 a jewel - to the family & - Church -

 he should not be attracted, she said

(Owing to the severe pains in my fingers,
as also the right hand fore finger being
affected, I couldn't write for days -
hence ^{many of} the events for these days
have been missed. However, as many as
could be remembered are included.)

Amongst the many important
events, the following are noteworthy.

The Rain Prediction & Sign

The outgoing monsoon having utterly
faded in Nagpur district, many a Shukra
Covey to Satin's door had been & again
spoken to her re. the ^{9th} scarcity of rain in
this dist. & this ^{was} then ^{merely}
laughed and said he ^{was} wished that there
be no rains, however, when so many

people actually pleased for some. They gave
 way and said that it (the rain) will be
 forth coming, and it actually came to pass
 one day that Ad. after speaking several
 times to them re rains, and they actually
 remarked that while everywhere else
 there had actually been floods, and
 villages & districts, all washed off here
 in the Sacred ^{land} of ^{great} ~~the~~ ^{holy} ~~Chinits~~
 (Kayan deth being referred to - it being the
 Sacred Seat of ~~Sakath~~ ^{Sakath} ~~lord~~ ^{lord} & ~~lord~~), the
 streams & rivers were actually dry.
 That too in full rainy season. Then what
 @ the dry season @ month of the year?
 Scarcity of rains etc. gave rise to malaria
 - cholera epidemics in the Kayan deth.
 people of Kayan were actually warned to
 use water discretely & carefully, not
 to walk, and actually asked to bind
 their own from the 15th or so. The
 Govt actually decided to raise the Camp
 from here & remove it to some other place
 etc. when matters reached such a stage.

Ad. one evening

etc. and then, in good humor gave word
that it will rain.

Then on Saturday the 10th she
took out his black warm coat -

after a very very long time. (He actually
kept it during the hot days of May-
June) and spoke to Ade that all the
heat has been taken up - there will be
Cold (ice) here, meaning it will rain -
and it actually did rain the

same evening, and in by showers
throughout the night. He however
put on the coat again on the morning and
tho' there were clouds and all prospects
for a heavy down-pour of rain, it did
not rain. (God alone knows what there
is in the taking and putting on of the
Coat which was actually experienced
brought down & stopped the rain).

A Saints words are ever true

On Thursday, the 8th there the party had been to Nagas, to attend at the opening ceremony of the "Maha mala" (Mr. Borker's office) in Kakai trade (mika mikhala have being summed by the car as "Sigaret - wa"). Tear presents were served to them & the mandala - several discussions were carried on, and then the party started for going to the "mala" (land property) of the Blaise at some 12 miles distant from Nagas. It was @ 5 pm when the party started from Nagas and no proper information as to the distance and the condition of the road was given beforehand, and it was when the mika had already crossed 2-3 miles that it was given out that the place was @ 10 miles off still. could be managed, even with great

thing which grieved Sh. the most & Sh.
strongly took Karkh to task for such negligence
in supervision & actually drove J. away for
not reporting to the right party - either Sh. or
Karkh.) but to me like Gulat &c. He was
however paid over eventually & allowed to
stay.

After the party was over, all the
