The sudden inspiration re: Idealism & Realism - why not  
Idealists right & why idealism at all - It's fact - rather, the  
other side is misguided in their notion of reality & matter of fact.  
- proofs - results of the fascist leaders, conquerors, kings - &  
only dust into dust - I don't think enough - records of history  
& propounder of a false confidence in their material & transitory?  
- reverse - results of material perhaps & precept  
Learned for Cartesian eyes - believers of followers ever was  
why - real, though at that time, I was not, stored

Talk with D. on B. - a startling fact - (under 600000  
order) - at first, 1000000 of 1000000 - rather, actual  
D. 1000000 - 1000000 - etc. example of the  
coming without proof after 1000000 - also of D. -  
having 1000000 with kids of 6-6000000 - etc.  
It's like with yr. own 1000000 expected - etc.  
Gauselli's story example - self-empirical of the very  
childhood - not to be in the obliquity of Pareto -  
The story of a Jew with powers showing re-acted - powers
