The road (station & outside) was all packed by
enthusiastic crowd assembled there to greet Gandhi
thinking perhaps that he would be coming by train &
(contingency of the Govt. changed plan at the last
moment to bring him by motor) - when our car
passed there this - after some time after all
others had gone (as we were a little late in

At (Mrs) Home, () a lady

a well-known & expert teacher in professional

tremendous love for B. who also liked her very much
rather most of all.

Mr. Whitley's visit with B

"It is the finest day this year"
said the driver when asked, from the Sunshine that
was peculiar to England.

After a drive of 10 hours, we arrived Cambridge
@ 5 pm. where anxious devotees awaited Sept
3-30 pm

At dangerous by sharp curve near
the driver nearly lost balance over the wheel,
Red had to help turn it to her side, otherwise
with the speed that it was going on the level drive
beard, there would have been a serious accident
with a sharp curve.

Since this incident, driver rather felt
nervous & drove more slowly & cautiously, hence
a little late - 4-30 pm being the time B wished
us to come

(13-9-31 Conf)

From Cumbe Inactin to East Challecombe
 was to keep climb walk of @ a mile - appeared
 scenery as surrounding -

B. only saw Niklos here but talked to
 none, being tired, today, except to Inayat -
 who was all tears. - couldn't check her
 curtains.

Mr. Watson, who is the Co. worker of Chce.
 Edison (the celebrated Scientist & inventor)
 had been here for 2 days. - - - - So strange a
 man of his age (78), bearing ability & position
 should descend to come down here. America
 would walk such a distance & would be
 willing to observe the rules & regulations of being
 here, in spite of his physical weakness (due to
 old age) & with his wife too. But he seemed
 to be impressed with the environment here
 & though B. didn't speak with him today
 (as with none), he was all well, & when B.
 crossed him, and took his hands into His own,
 the whole being began to shudder & he felt
 a strange experience.

"I knew & felt to day what Kerey God
 is, when B. touched me, got my hand into His."
 That was what he spoke to me, the first time he saw
 me, commenced speaking.

How long have you been with B?

Seven years!

Though B. didn't speak with me as
(as with none), he was all well, & when B.
crossed him, and took his hands into His own,
his whole being began to shake & he felt
a strange experience.

"I knew & felt to day what Heav'n's God
is, when B. touched me, got my hand into His."
That was what he spoke to me, the first time he saw
me, commenced speaking.

How long have you been with B.?

Seven years!

"You have indeed been so lucky in being ^{so} near
with B. What a privilege - What a luck?"

"I knew to day what god-love is, when
B. touched me... I lost myself. We all
feel like that, always"

Many generally feel like that. It all
depends on the extent or degree to which one is
prepared to accept, according to the power of
receiving - of his Soul — and B. gives accordingly
to all — irrespective of Caste, colour, ^{or} creed!

atmosphere here -

(Monday - 14/9/31 Contd)

Mr. Watson -

how it experiences Universe or then God - when the eye

It's the Internal perception that enables one to turn
around or look @ God, when the effort has reflected
& you will get it.

(Qualities Again)

(1) Pure Character (not necessary in yr case
meaning yr are too pure)

(2) The ideal SERVICE ^{must} be selfless -

What can I do? I can't work, being too old or
weak, but I can help, any other way -

The remarks again & why? — "Why do people try to make
fun at the expense of others & look themselves 'Smart' or 'clever' —
are there no other ways?" were the thoughts that bored me tonight
fr. R's remarks, today, the very first time, on the dining table
here before so many & reminded me again of his ^{same} undesirable
attitude on 'Rajputana' — How ever much did I try to make myself
believe otherwise, the thought bored me Why?

the attainment of our highest ideal (to reach the goal
of realization) was a Mathematical point, which
he saw, clearly mediated ^{Geometrical}.

and all did go well, unexpectedly. For
Kitty, a splendidly frank, unvarnished soul, felt inwardly
the impulse - couldn't express - even before B. -
but came out of her own accord, unasked, when the
proper moment came, during private discussions
afterwards - in the evening B. offered to do every
thing she could - in the cause of B. - which put
things straight, & started the business, as if

Steve had already done it - and it came out

etc.

His discussions with Rubt & myself - inquired, by
questions cleverly put, as to ^{our} impressions @ B. -
