Re: Baba's Articles & Explanations -

Discussing about B's explanations at different times on different topics - a beauty of its own even in repetition of one and the same subject explained several times. It is never boring, always interesting, impressive & imparting & inspiring.

Re: These explanations printed by Baster in passage all agreed that he had in most cases misunderstood the spirit. Even Lenin could more faithfully have ^{reproduced} ~~reproduced~~ these

Re: Gandhi & Aravindas Ghos - Mr. Mehta -

Suggestion to give B's article for being reproduced in English to Mr. K. Yes, he will come to the . . . & will see

B. would like Ar. Ghos to write. He is in higher planes (v. sincere . . . clever too . . . & would write splendid (barrister) and for Gujarati, Gandhi himself offered help to write it all in Gujarati and he would be the best to write it in Gujarati as I. K. or Ghos. would be for writing in Eng. . . . and then when G. or I. K. or Ar. Ghos. on B's side, the world would be at his feet. -

Luzau - 1st May 1932 (Contd)

The Meeting in the afternoon & the lecture by B.
First - reading of the Articles of B. published in Message... on
"Self-realization - practical & Mystical Ideas... explanation
in the Middle... than on "Love"... explanation (vide
detailed Notes - verbatim by P, as well as that written out
by Dr.) Music - (Indian records) on gramophone -

M. K. ... spared no pains to make B. happy... Her
Dauisity to look to all Minute details for B. & then for
all other were simply admirable... she had ^{no} thought of
Self & always of others - unreiring efforts with all hearts...
9/1/32 remarked - Had it not been for K. we would have
been no where in our present "Condition" (meaning
of deep feeling for B. & indifference to all else) Aue
said for K... "Poor darling... she's struggling as if to bring
the Moon down for B..." - Had it was so true to the word.

But when her efforts didn't bring the desired result or
rather the reverse, she wd. quite naturally feel depressed...
feel so deeply as to cry out in desperation Why it could not
be so in spite of all possible efforts & wholeheartedly....!

May 1992 (Contd)

Looking at the afternoon & the weather
of the disorder of the published message
- practical & important cases - explained
the a Love - also possible
revelation by 19, as well as the other
is. (Judge words) on fragments
and the pains to create P. happy
look to all M. create depth for the
completely admirable - He left the
of others - including efforts with all
- Had it that was for the world
in our presence (P. desire)
of P. & respect to all else
Love dealing - He's struggling & if it
he to... "had it were to be to the world
part did not bring the other world
- He was quite naturally feel
- say not in his presence - why it could
possible effort & wholeheartedly

And when B... just in a passing remark meant for
S:692 said - quite lightly that - S:692 didn't love B...
comparing them with Jean La of N.Y. ... and referred how they
went out for a walk outside when B. was sitting inside...
M. couldn't keep up... it broke her heart... called in...
aplanation followed... "I remarked this all in joke... For
altho' there is no sun, & rather raining & dull, which He didn't
like to suit the atmosphere suit His working... it was the
love of S:692 that kept them here... otherwise, He would
stay one hour in these conditions... It is love that had made
them (S:692) so... He knew it all... and loved them all for
all this, all the more... but this 'punching' was part of
His working for their own good... to create more love...
Hence none should mind or feel it... "

Adi refers @ last night's significant sign of B. (at 1 o'clock
midnight)

- (1). "Some one old" (2) parcel... Adi couldn't understand it,
and couldn't sleep for 1 hour wrecking his brain to interpret it.
What did this mean? -

Lugano -

Morning Meeting (private) - a discussion re:
future Movements & plans in face of the Situation in
India (vide Ranju's letter & Rust's teleg. fr. Shanghai)

— What of the 25/26-20...? The only way in India - must be
preserved... but not in this way... must be self-supporting till B.
returns... (Is B. playing DDB? ... Unthinkable! Yes, B. says
So... what to do?) Ruston (if anyone is to take charge) must go,
but it's a question of he would. Side: Suggested... approved... to go
with P. Attorney to manage all affairs with the help of A. (fr.) and
China party returning from there. (Instructions to follow).
Letter sent to Ranju... & to London to send bags of both A's.

After lunch, the 25/26-20 of both A's... They can't help that...
nobody wd. wish to leave B. Especially when He visits America with
the expectation of such publicity & warm welcome there... But He
is B... & this is the Situation & there's no go... The depression comes
later on after the excitement of the "promise" subsides... & then the
reaction bringing in its trail a thousand & one thoughts... One
says "will do... but not permanently" the other "will go... but
don't see any necessity of my going & help ch... It's an excuse to
back off... "-----

Early morning, preparation for a start to the
Trip to Mount Gair

By Ferry boat, round beautiful lakes, and then
by the Funicula (train with a peculiarly crated
engine behind, and a tram-like bogie for passengers, in
front), up on the top of Mt. ^{all} 5600 ft. high -
clad in snow ^{around}, and overlooking the best
scenery all round, all varieties viz. Mountain ranges
of the Alps with ^{with} snow clad peaks in the back-ground, and
with ^{with} verdant hills, green or dark grey spots - with
beautiful lakes - "Lugano" - "Marghera" & "Como" - with the
sun-shine that added exquisiteness to the beauty of the spot -
with the reflection of the white & black clouds, and of the
blue firmament in the glass-like crystal waters of the
lake, with cities of Lugano, Locarno & such others, their
beautiful buildings adding to the colour of natural beauty
& brilliance - all an ideal spot for a dreamer, a
painter, for those who could admire Nature at its best,
with art blended in the beauty, for those who seek seclusion
- A veritable seventh heaven!

(Laguna - 3rd May 1932 - contd)

And to be on such an ideal spot, with B. in one of
the most pleasing mood, and a really loving party of
pleasant companions.... Mandali..... all in glee!

It was an actual realization on earth.

And B. ^{seemed to} enjoy it all - with others.... playing

Lunch in the open, Sun-lit spot with the party.

So that after all, Ketter's sincere and untiring efforts to
find the Sun ^{to go to the Mandali} to make B. happy were thus crowned with success.

B.'s Special Message to Kinnco re: their Unbounded love for Him, His appreciation and an advice to be nice with GEDERS & GODDET in London and Not to mind what they say. ^{to} Not worry at all but listen & receive instructions from Baba only (vide message paper)

The decision — for future action by B. in face of the Situation created fr. last night's outrageous murder..

(a) — something to be taken on Self (i.e. Sufferings)

(b) — " " turned to Anti-propaganda

(c) — " " of stripes here & there

a blended Mixture distributing the actual Sufferings of war in these 3 departments

This was communicated to Kinnco who felt relieved that B. would suffer much as he would have to, if he were to take the ^{entire burden of} suffering on himself physically to avoid a ^{world-wide} war ..

... They rather welcomed even "opposition" or "little strokes
of sufferings here & there" if they mitigated some of his
personal sufferings physically... They even offered to accept
sufferings on themselves - if that could lessen B's sufferings... but
the smallness of their capacity in comparison with the vastness
of B's activities & suffering... is counted v. little, practically to
nothing... & they felt so disappointed...

The beginning of the game - Aced just after an hour
after the topic was discussed, Kitty read a letter fr. London fr.
Dun... stating that there were some unpleasant & scandalous
reports in papers, & when these are repudiated, B's stay at 32
would be... this time... K. worried ^{about} the situation...

But B. explained that this is part of our game. I am
pleased to face the situation... This opposition is deliberately
created to give a greater force and effect to my looking in
the ^{world} upheaval that is to follow... But what he really desires
of them 32 & 33 is that they should n't mind this & worry a bit.
... boys heard them & this game... They would be upset... but it is
for them 32 & 33 he felt & advised them Not to feel upset in the
least... He knew what this all is due to & who did this all...

Explains further, B. said that the opposition or false reports
in English paper are given by Dr D.E.T. W.D. & Co. deliberately
... Poor fellow... He is to be pitied rather than a blamed...
For he is ^{made an} unconsciously instrument by others & is
India & quite unconscious of the real situation & inner
details & object of J.W.D. & Co. ... as also out of his country with
G.D.S. & Co. he is doing all this ... And what they do or
say is this that "I am running a W.I.E.G.W. Keeping
paid servants (D.G.S.) & speaking with the inner
- dose Mandali & simply pretending that to speak in public"
and so on..... The facts however are and I make them
quite clear today to you all that you may not feel confused when
you happen to hear about it from others that ... One young student
disciple - R.D. built a W.I.E.G.W. in India, and dedicated it
1906 to Mr. W.K. for the other two accusations that

8th May 1832

I cannot reply with a merciful smile
people & pretend silence in public those who spread
such rumors are to be pitied as for Joseph who is
behind all this & harnessed against, his case is more pitiable
than others for it was he who took me to be his all in all & was
ready to "wash my feet with his blood" ... publicly declared this
..... and then, a child that he is, now contradicts his
own statements & the pity of it all that he does this all
for the sake of Goswami (letters in regard to his own
writing are still with me) and poor Goswami is made
a fool & tool by this Joseph He (Joseph) had been to India
stayed there at Nasik, seen things for a few days, and
when he asked B's advice, he told him to go to certain
places in India He didn't do it but came under the
influence of Joseph and then commenced spreading
lies there this is the result.....

But Mind you all, this result was expected,
Kathar worked out just as have ago, I've talked
about "Opposition" etc & here you hear of it.
So - don't worry any of you Let nothing upset you -
This is all My game ... and I'll see to it.
