Prevention — dry weather, as in M'bad, though v. good for consumption, is v. bad for cold & chill, as the chest is at once affected or pneumonia attacks both lungs too quickly for any symptoms or remedy. The best remedy for prevention of this is protection of chest against Chill — Hence order is every one should must put on warm gauze or underwear every evening, immediately he seen Sets — and to keep it on throughout the night till it is off after sun-rise.

Morning talk - Somebody brought report that a v. big "Satyanarayan Puja" ceremony or feast of thousands was being held at Kedgaon, under Narayan Maharaj - now a days, and thousands were spent on Saliya. Thereupon, B. remarks that these two "Maharajas" (1933-05-01 & 1933-05-12) were now a days allowing the Hindus, particularly, the "Barmas" much latitude, & these Barmas were giving yet under them - a short waste of money on things strictly communal & ceremonial while He, who was working for Universal uplift of humanity had but 3-393.

It was a matter of great surprise why or how these two Perfect ones at all allowed these sectarian ceremonies - under their rule - built temples, allowed elaborate Caste Ceremonies by "Barmas" to be regularly performed - in that giving their surroundings a <sup>typical</sup> Hindu Atmosphere of though they themselves were above & beyond these caste prejudices etc. Even Nuckawada, in spite of his learning, & knowledge etc. in the West gave much prominence & preached "Vedantaism". It was a typical case of B. alone, who preached or taught or tolerated no particular religion, or allowed any Sectarianism under him, and spread the Universal doctrine of Universal Brotherhood & Love - Among thousands of his devotees of all castes & creeds, in the East & West: And even stopped Arki-puja a "caste other" Caste demonstrations, which were in vogue, in the beginning years of his Guru-bhakti activities - in India. .... Even then, there were concrete example of His bringing all people together, in His Mandali, & also forcing Brahmins to wash the feet of "Untouchables" which He himself practised - a service none else did to the Cause of the Untouchables - although much is spoken & written by so-called "Uplifters" of cast, down-trodden, neglected "Untouchables"; which He did silently, yet effectively, setting an example, and a moral obligation on others, who hesitated at first, but had to do it - in his presence!

Besides personal treatment of help (washing, cleaning, feeding, clothing etc.) and curing the incurable .... diploma & his past - charan-sarai etc. B's Significant remarks - Obviously, he remarked, quite in joke to - That now-a-days two "Maharajas" were wasting thousands on such sectarian demonstrations of temples, Arki & Satyanarayan etc. while He had so much 3-393 for his great Universal work - These two Maharajas will have 1/w 3-393 - for expenses and

Maharaj - 0590C - To my mind, it signified that these two Perfect ones shall have to bear the sins & suffer for these sectarians - Barmas etc. - who tried to have a upper hand & rule others, even in their clanship, where Caste, creed or communal demarcation should all vanish..... & since they had to allow that - for reasons in spite of their being above & beyond these - the reactions of all here had to go on here etc.

The "U.S.W - G.W & W.L's" Suffer — Because, G.W was "out of hood". P. didn't want to stay here & leave B. — with the beginning, the discussion went as far as how during which all details re: Karachi affairs, rumours etc. re: B. being the cause of the death of F. & K. & such silly talk by pig-headed G.W & co. etc. were brought up. What do these handful of P.s count in multi-hundreds of the world? There are lots of Hindus, Mohammedans or Moslems in the West — who love, adore & worship B. in different ways and degrees according to their understanding & so on — so why worry if these handful of P.s don't? Let them go on with their silly, senseless, malicious, scandals, & take the consequences! They don't count in B's Universal Org devotees, admirers, loves & worshippers, and he won't care a pin for them ..... That is why He totally avoids & ignores them, and that is why they suffer — as they do now — & will suffer much more! He goes on with His work quietly, totally dis regarding their existence for the present, but is sure to bring them round, in time, when after v. bitter experience, they will learn to understand things & recognise their

West indeed preferable from all points of view, however for business  
difficulties re: enormous cost a financial stringency, independent  
enterprise ourselves impracticable: hence alternative: their cost:  
suggest Ceylon etc. etc. otherwise India (vide cable)  
- long cable instructed to be drafted also..... long made short etc.
