The gracious Lord of Beauty came
To Greece in days of old,
He planted Art in the human heart
And love of beauty in their soul.

When next He came with another name,
And the fields of Persia trod,
He taught, the pure, could bes t endure
The Living fire of God.

To India's plain great Krishna came
The land of Ancient Sages,
The joy He brought, the wisdom taught
Resounded down the ages.

To India next Lord Buddha came
And taught that Law Divine
Gives power to grow and truth to know
And hope to all mankind.

Then our blessed Jesus came,
As the Holy Land He trod
Taught through Love alone can man atone
And find his way to God.

To Arabia's land Mohommad came,
He taught that God was One,
The way to Him, was to pray to Him
At the rise and set of Sun.

Once more the Lord of Love is here
And His call to a world in need,
To cease the life of endless strife
And turn to loving deeds.

O' World pay heed to that clarion call
Help spread it far and wide,
While Meher Baba walks with men
As Lover, Friend and Guide.
